

IB Business Management HL (Higher Level)
Myers Park High School

Syllabus 2019 - 2020

Instructor: Anne Cullip

Course Description

It is the study of both the way in which individuals and groups interact in an organization and of the transformation of resources. It is, therefore, perfectly placed within the group 3 subject area.

The Diploma Program business and management course is designed to develop an understanding of business theory, as well as an ability to apply business principles, practices and skills. The application of tools and techniques of analysis facilitates an appreciation of complex business activities. The course considers the diverse range of business organizations and activities and the cultural and economic context in which business operates. Emphasis is placed on strategic decision-making and the day-to-day business functions of marketing, production, human resource management and finance. Links between the topics are central to the course, and this integration promotes a holistic overview of business activity.

The business and management course aims to help students understand the implications of business activity in a global market. It is designed to give students an international perspective of business and to promote their appreciation of cultural diversity through the study of topics like international marketing, human resource management, growth and business strategy.

Internal Assessment: Weighting 25% of IB Score and 4th Quarter Formal Grade

The HL internal assessment is a research project that demonstrates the application of business skills and knowledge to real organizational issues or decision-making. Students must select a real organization and the issue or decision under investigation must also be real. **Primary research should be gathered from the organization.** The style and format of the report should be in the form of a useful working document for management.

External Assessment Weighting 75% of IB Score

The two written examination papers, paper 1 and paper 2, which are externally set and externally marked, test the assessment topics listed above. A case study will be analyzed. The purpose of the case study is to assess the student's ability to apply business knowledge to a given situation. The case study on which paper 1 is based will be the same for SL and HL students, but different questions will be set for each level. Case study paper 2 will be based upon additional information given to the student at testing time.

Make-Up Work: Students who are absent are responsible for seeing the teacher about missed work. Students with **Excused** absences have 5 days to submit missed assignments/test make up.

NO WORK IS ACCEPTED AFTER EOC EXAMS BEGIN

Tests are scheduled in advance: Students present on test day will take exams unless prior arrangements have been made.

Late work will be accepted but may not receive full credit.

After a 3rd absence on a formal assessment or project, the student will require a doctor's note or receive a 0 on the missed test. After the 3rd absence projects due must be delivered to me by someone on the due date or the project will receive a 0.
